COURSE OVERVIEW

Banking industry worldwide has dramatically shifted from physical to digital over the years. The industry has now emerged as a technologically advanced world, that is full of modern digital facilities and high-tech solutions for its customers. Besides the automation of banking procedures with advancement of technology, the authorities and stakeholders involved, are focusing high on improving the efficiency, facilitation and number of ATMs in order to provide swift and convenient access to the customers for various payments & withdrawals through these machines. This program will highlight the importance of improving services through ATM machines. It will also discuss in detail the regulatory guidelines regarding ATM operations and settlement.
